The International youth meetings
Istres - July 27 - 31, 2014

www.rij.fr

Who are we ?

The Peace Movement

Created in 1948, The Peace Movement is a pacifist NGO advocating for disarmament, particularly nuclear, and engages in the construction and promotion of a Culture of Peace. Registered as a national youth and popular education association, The Peace Movement has organized the International pacifist youth meetings since 2002.

A bit of history ...

New York, Hiroshima, or Paris, had already welcomed young people from around the world in the name of peace. This sixth edition -100 years after the start of WWI takes root in the footsteps of the great pacifist figures of Jaurès and Mandela, whose analyses and commitments are still valid.

The IYM, what for ?

The International youth meetings aim at:

1. Creating and promoting an active international network of young pacifists
2. Setting up a forum on pacifist commitment and international news
3. Promoting peace in the host city
4. Encouraging youth engagement for peace

The IYM 2014 edition

Istres and its wonderful sunshine greet us from July 27 to 31, six days of exchanges and sharing under the colours of peace! Jean Jaurès and Nelson Mandela will be our distinguished guests for this eventful edition. What's planned? Conferences, discussions, photo and video workshops, tours, commemoration, flash mob, and plenty of other things are waiting for you.

Participants will reside in the resort Heures Claires in an idyllic ambiance, conducive to celebrate 100 years of pacifism.
